

Name	Matt Woodruff, Chief Data Scientist, Coscole Dr Michael Reddish, Deputy Head Academic, Princethorpe College
Session Time	Digital, Data, Analytics & AI: Lessons from the field 14.10 – 14.35

Session Synopsis

Last year at the ISC Digital conference Matt set out to address data and information challenges faced by schools. With a candid discussion about what worked well, and where he crashed and burned, Matt is back to reflect and share.

- Analytics to AI in Education: the current state of Education Analytics and AI
- The ISC Digital Analytics Research Stream review, in 5 minutes.
- A project reflection: Academic performance at Princethorpe College

Speaker Profile

Matt helps schools and Trusts in all phases and sectors turn data into meaningful information to make more informed decisions and help to improve outcomes.

Matt has a prior background with Microsoft and other global technology companies and has led public sector Business Intelligence projects in the UK. As a Microsoft partner he has led workshops focussing on data strategy and technology enhanced learning at MOE level internationally.

A technologist at heart, Matt has been a school governor for 10 years, is married to a teacher, has three children, holds a Master's degree in Online Learning and leads a Microsoft Partner recognised for competence in Data Analytics. Passionate about the opportunities to apply data science, and in particular machine learning and artificial intelligence, to the challenges faced by the education sector.
